

# THE ZEPHYR ECO SOLID WOOD DC CEILING FAN

## SPECIFICATION SHEET

### Description

The Henley Zephyr Eco ceiling fan is a beautifully styled, high performance ceiling fan delivering a massive 17,000 m<sup>3</sup>/h of airflow from just 24 w of energy! The name means a gentle mild breeze, taken from the Greek god Zephyrus who was god of the west wind and bringer of the spring breezes.

The fan is 3 bladed, styled on an old bi-plane propeller - but without the noise! Its powerful EC/DC brush-less inverter motor is totally silent with no buzzes, hums, clicks or wobbles. The unique hidden motor and upwards sloping blades design makes this a very popular model.

### Applications

The Zephyr is perfect for restaurants, theaters, halls, big rooms, offices, bedrooms, conservatories or common areas where large coverage and/or total silence is required.
